

# PHASE 1: US 12 McNary Pool to Attalia

## Four-Laning US Highway 12

### Purpose

Improve safety, decrease congestion, and enhance economic vitality

### Project Description

Add an additional lane in each direction, replace the bridge, and construct wetland, fish habitat, and recreational features

### Project Cost Estimate

Total: \$11.2 million

### Construction Timeline

Start: Spring 2003

Finish: Fall 2004

### Environmental Features

- Construct the 23 acre Two Rivers wetland site
  - Compensation for wetland impacts between Burbank and Wallula junction
-  • Add planting benches in Casey Pond
  - Creates near-shoreline fish habitat
-  • Breach the levee between Upper and Lower Casey Ponds
  - Allows water to flow and fish to pass between the ponds

### Additional Project Features

-  • Construct a new boat launch and improve the access road
-  • Re-align Two Rivers Road
  - Improves safety by aligning Two Rivers Road with Dodd Road in order to eliminate one intersection
